

## Star Fish Pond Pit St. Johns County, FL

### **Project Description:**

Matthews Design Group, Inc. (MDG) completed engineering, site design, and permitting for this 130 acre borrow pit. This project included reviewing several options to best take advantage of the site geography and geology to mine premium grade material used for the construction of roadways. This borrow pit will ultimately consist of three pits dug in the “wet” by dragline.

**Project Manager:** *Rob A. Matthews III, P.E.*

**Project Status:** *Construction*

**Client:** *East Coast Aggregates, LLC*

MDG services provided:

- Special use application with St. Johns County
- Reviewing geotechnical features to determine design depth
- Final engineering
- Permitting with St. Johns County, FDEP, and SJRWMD
- Hydro geological and groundwater study by sub consultant
