

Ice Plant Distillery St. Augustine, FL

Project Description:

Matthews Design Group, Inc. (MDG) engineered a site design to update this former ice plant for use as an upscale restaurant and micro-distillery near downtown St. Augustine. Scope included stormwater and utilities infrastructure design, parking lot design, and construction administration. Permitting was with the City of St. Augustine and St. Johns River Water Management District.

Project Manager: *Rob A. Matthews III, P.E.*

Project Status: *Complete*

Client: *St. Augustine Distillery*

MDG services provided:

- Complete site design
- Permitting with City of St. Augustine and SJRWMD
