SITE DESIGN AND PERMITTING FOR CREEKSIDE CHRISTIAN CHURCH ST. JOHNS COUNTY, FLORIDA

Creekside Christian Church and parking lot

Matthews Design Group (MDG) completed engineering and site design for a proposed church complex located along the north side of Race Track Road in St. Johns County, Florida. The property consists of a 40.17-acre parcel, heavily wooded and grass-covered before cleared for construction. The parking lot and roadway layout works in harmony with the church's future expansion as well as future improvements to Race Track Road.
