

PROJECT PROFILE

» Key Project Elements

- Site design
- Stormwater and utilities infrastructure design
- Permitting with St. Johns County, JEA, SJRWMD, FDEP, and USACE

» Owner

First Baptist Church of Mandarin

» MDG's Role

Prime engineering consultant

» Status

Ongoing

ENGINEERING SITE DESIGN, FIRST BAPTIST CHURCH OF MANDARIN, HOPEWELL CITY OF HOPE ST. JOHNS COUNTY, FLORIDA

Architectural rendering of site plan shows the various buildings and landscape features that will comprise the church complex.

Matthews Design is presently engineering a site design for a 30-acre site that will house multiple buildings including a sanctuary, a conference center, a recreation gym and outreach center, a special care housing building, and an administration building. Work scope includes site design, stormwater and utilities infrastructure design, and permitting with St. Johns County, St. Johns River Water Management District, JEA, FDEP, and Army Corps of Engineers. As lead engineering consultant, MDG is responsible for all project work performed by subconsultants, including geotechnical and environmental engineers, surveyors, and landscape architects.
